TOM is a revolutionary and cost-effective Smart security & surveillance system that provides greater insight into casino operations.

The Intelligent Eye in the Sky.

Continuous Monitoring

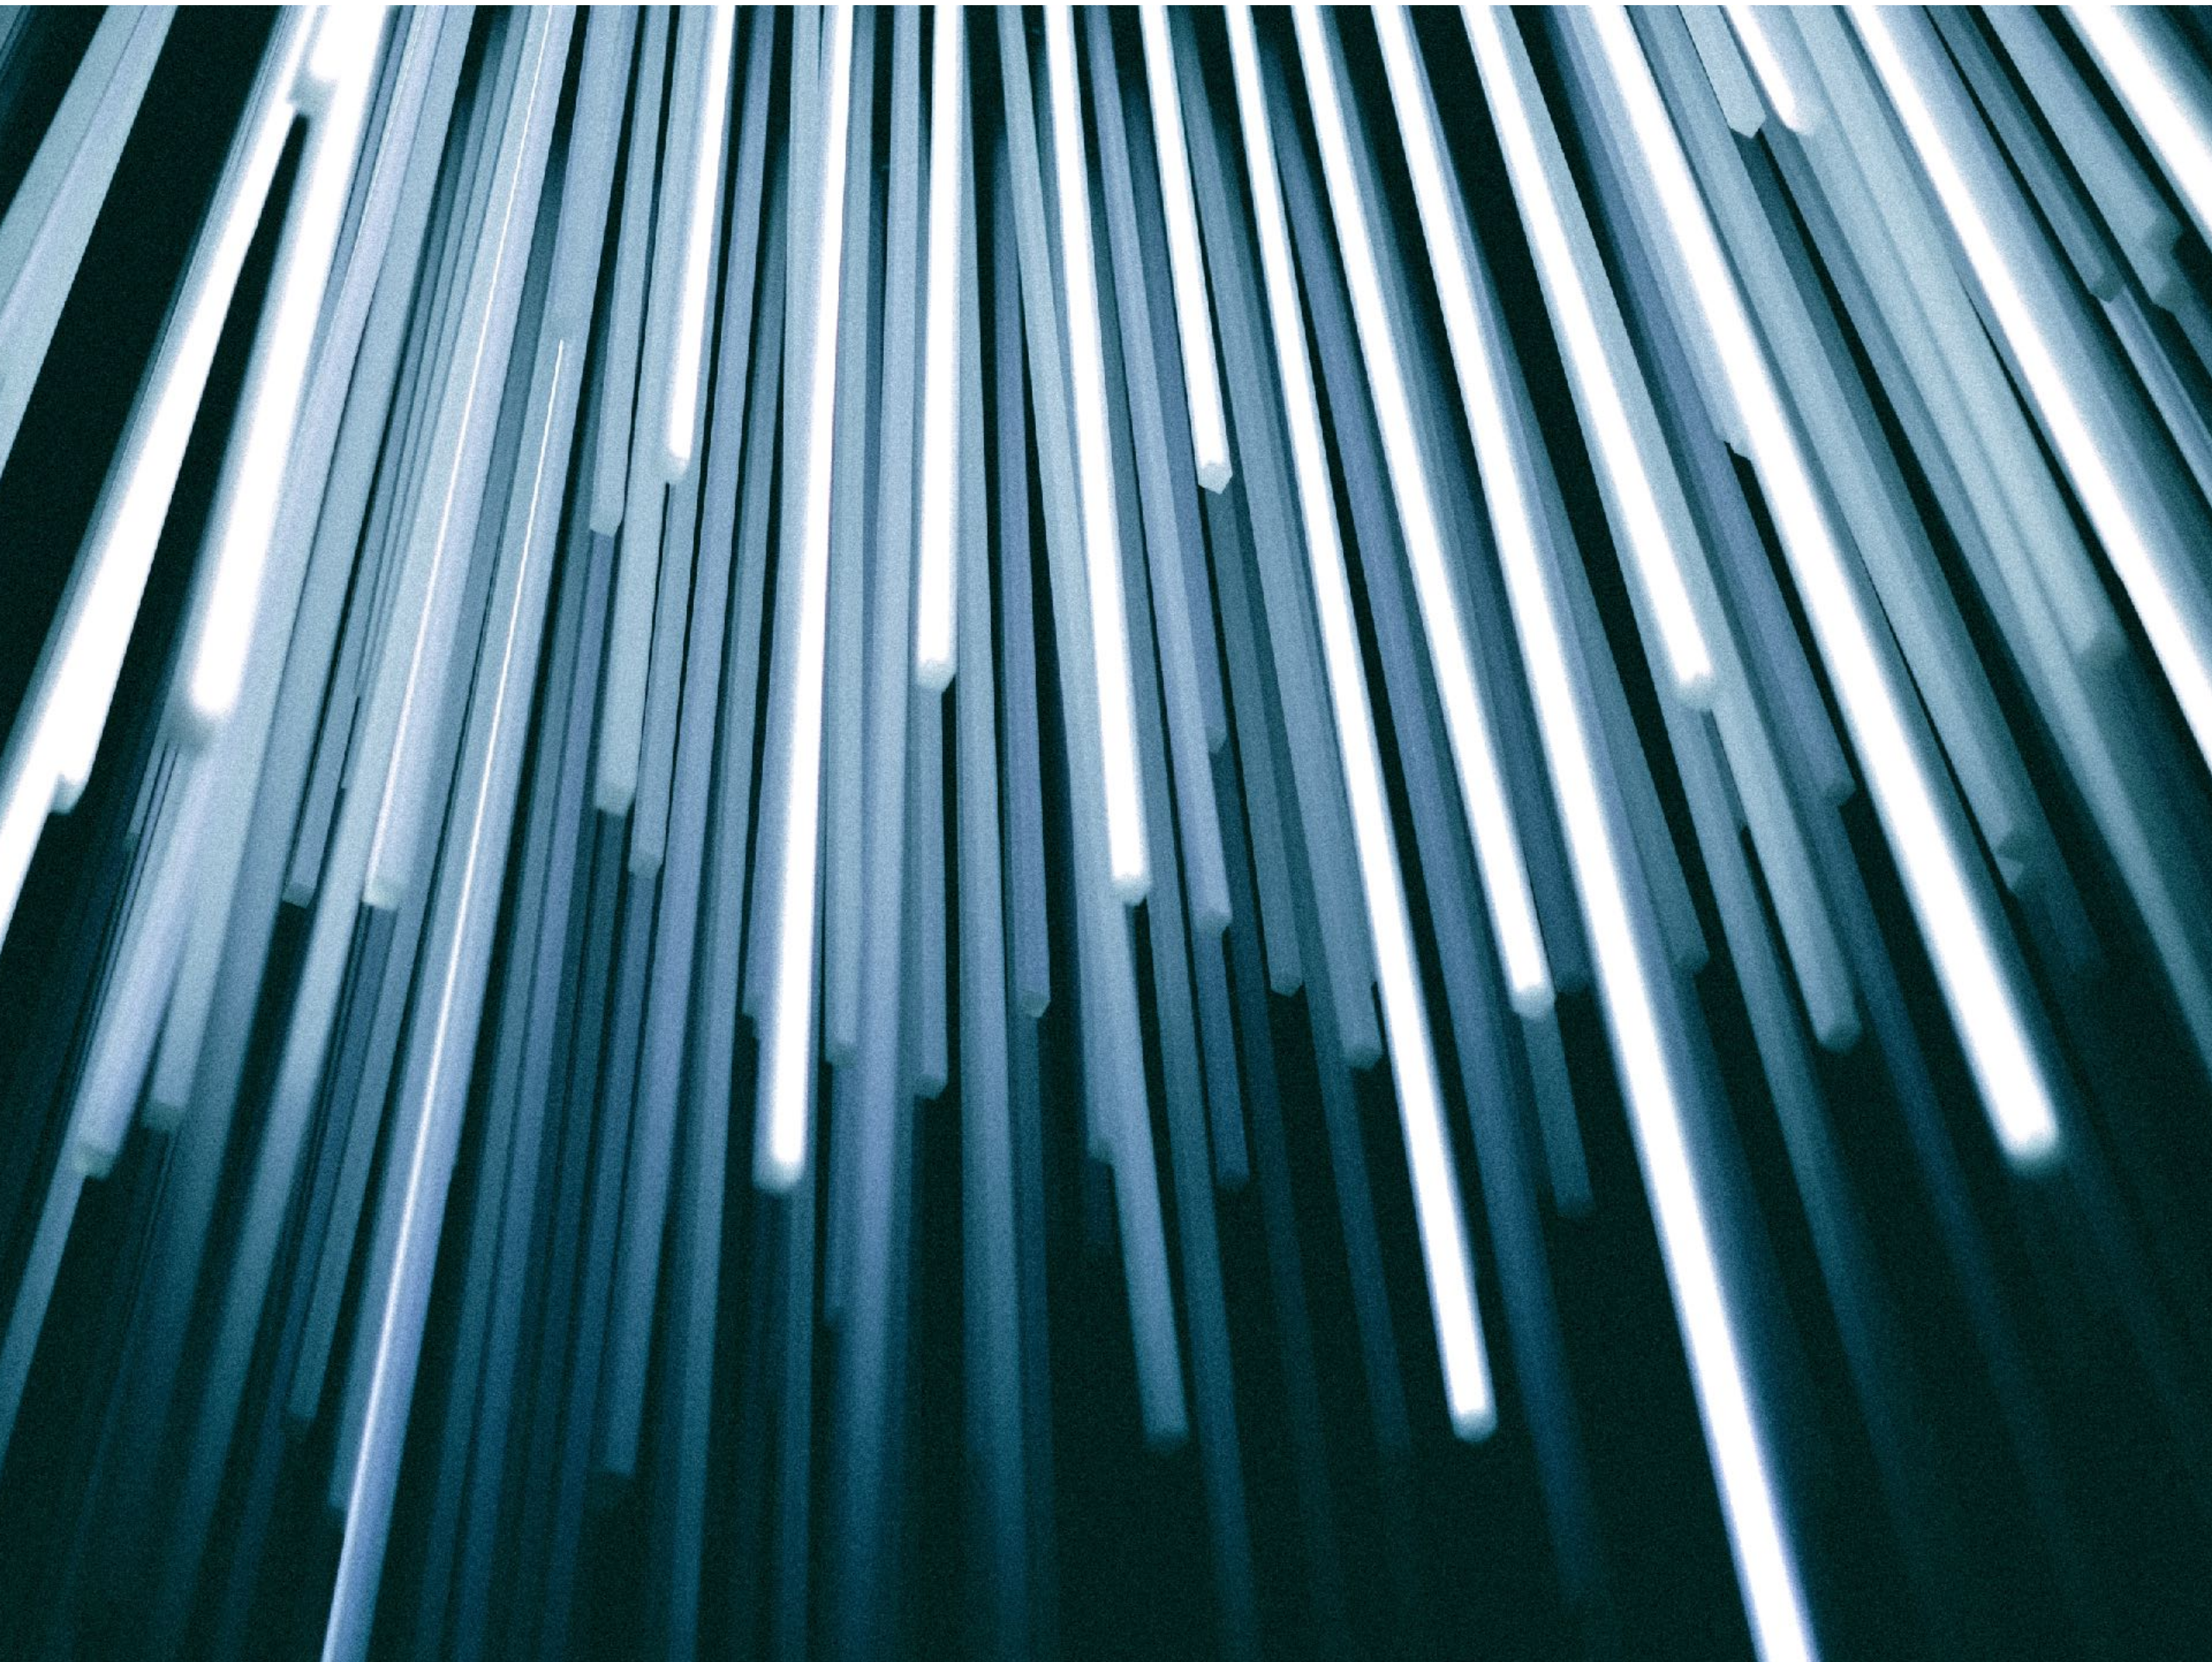

providing 24/7
coverage, free of
human error.

Comprehensive Analysis

of all card, roulette,
and Dice games
operations.

Actionable Reports

with first-of-its-kind
data on operational
efficiencies.

TOM delivers data reporting discreetly in the background

TOM can be so naturally-incorporated into your facility that it almost goes unnoticed, ensuring that your customers have a great time, while TOM keeps a watchful eye on your operation 24/7.

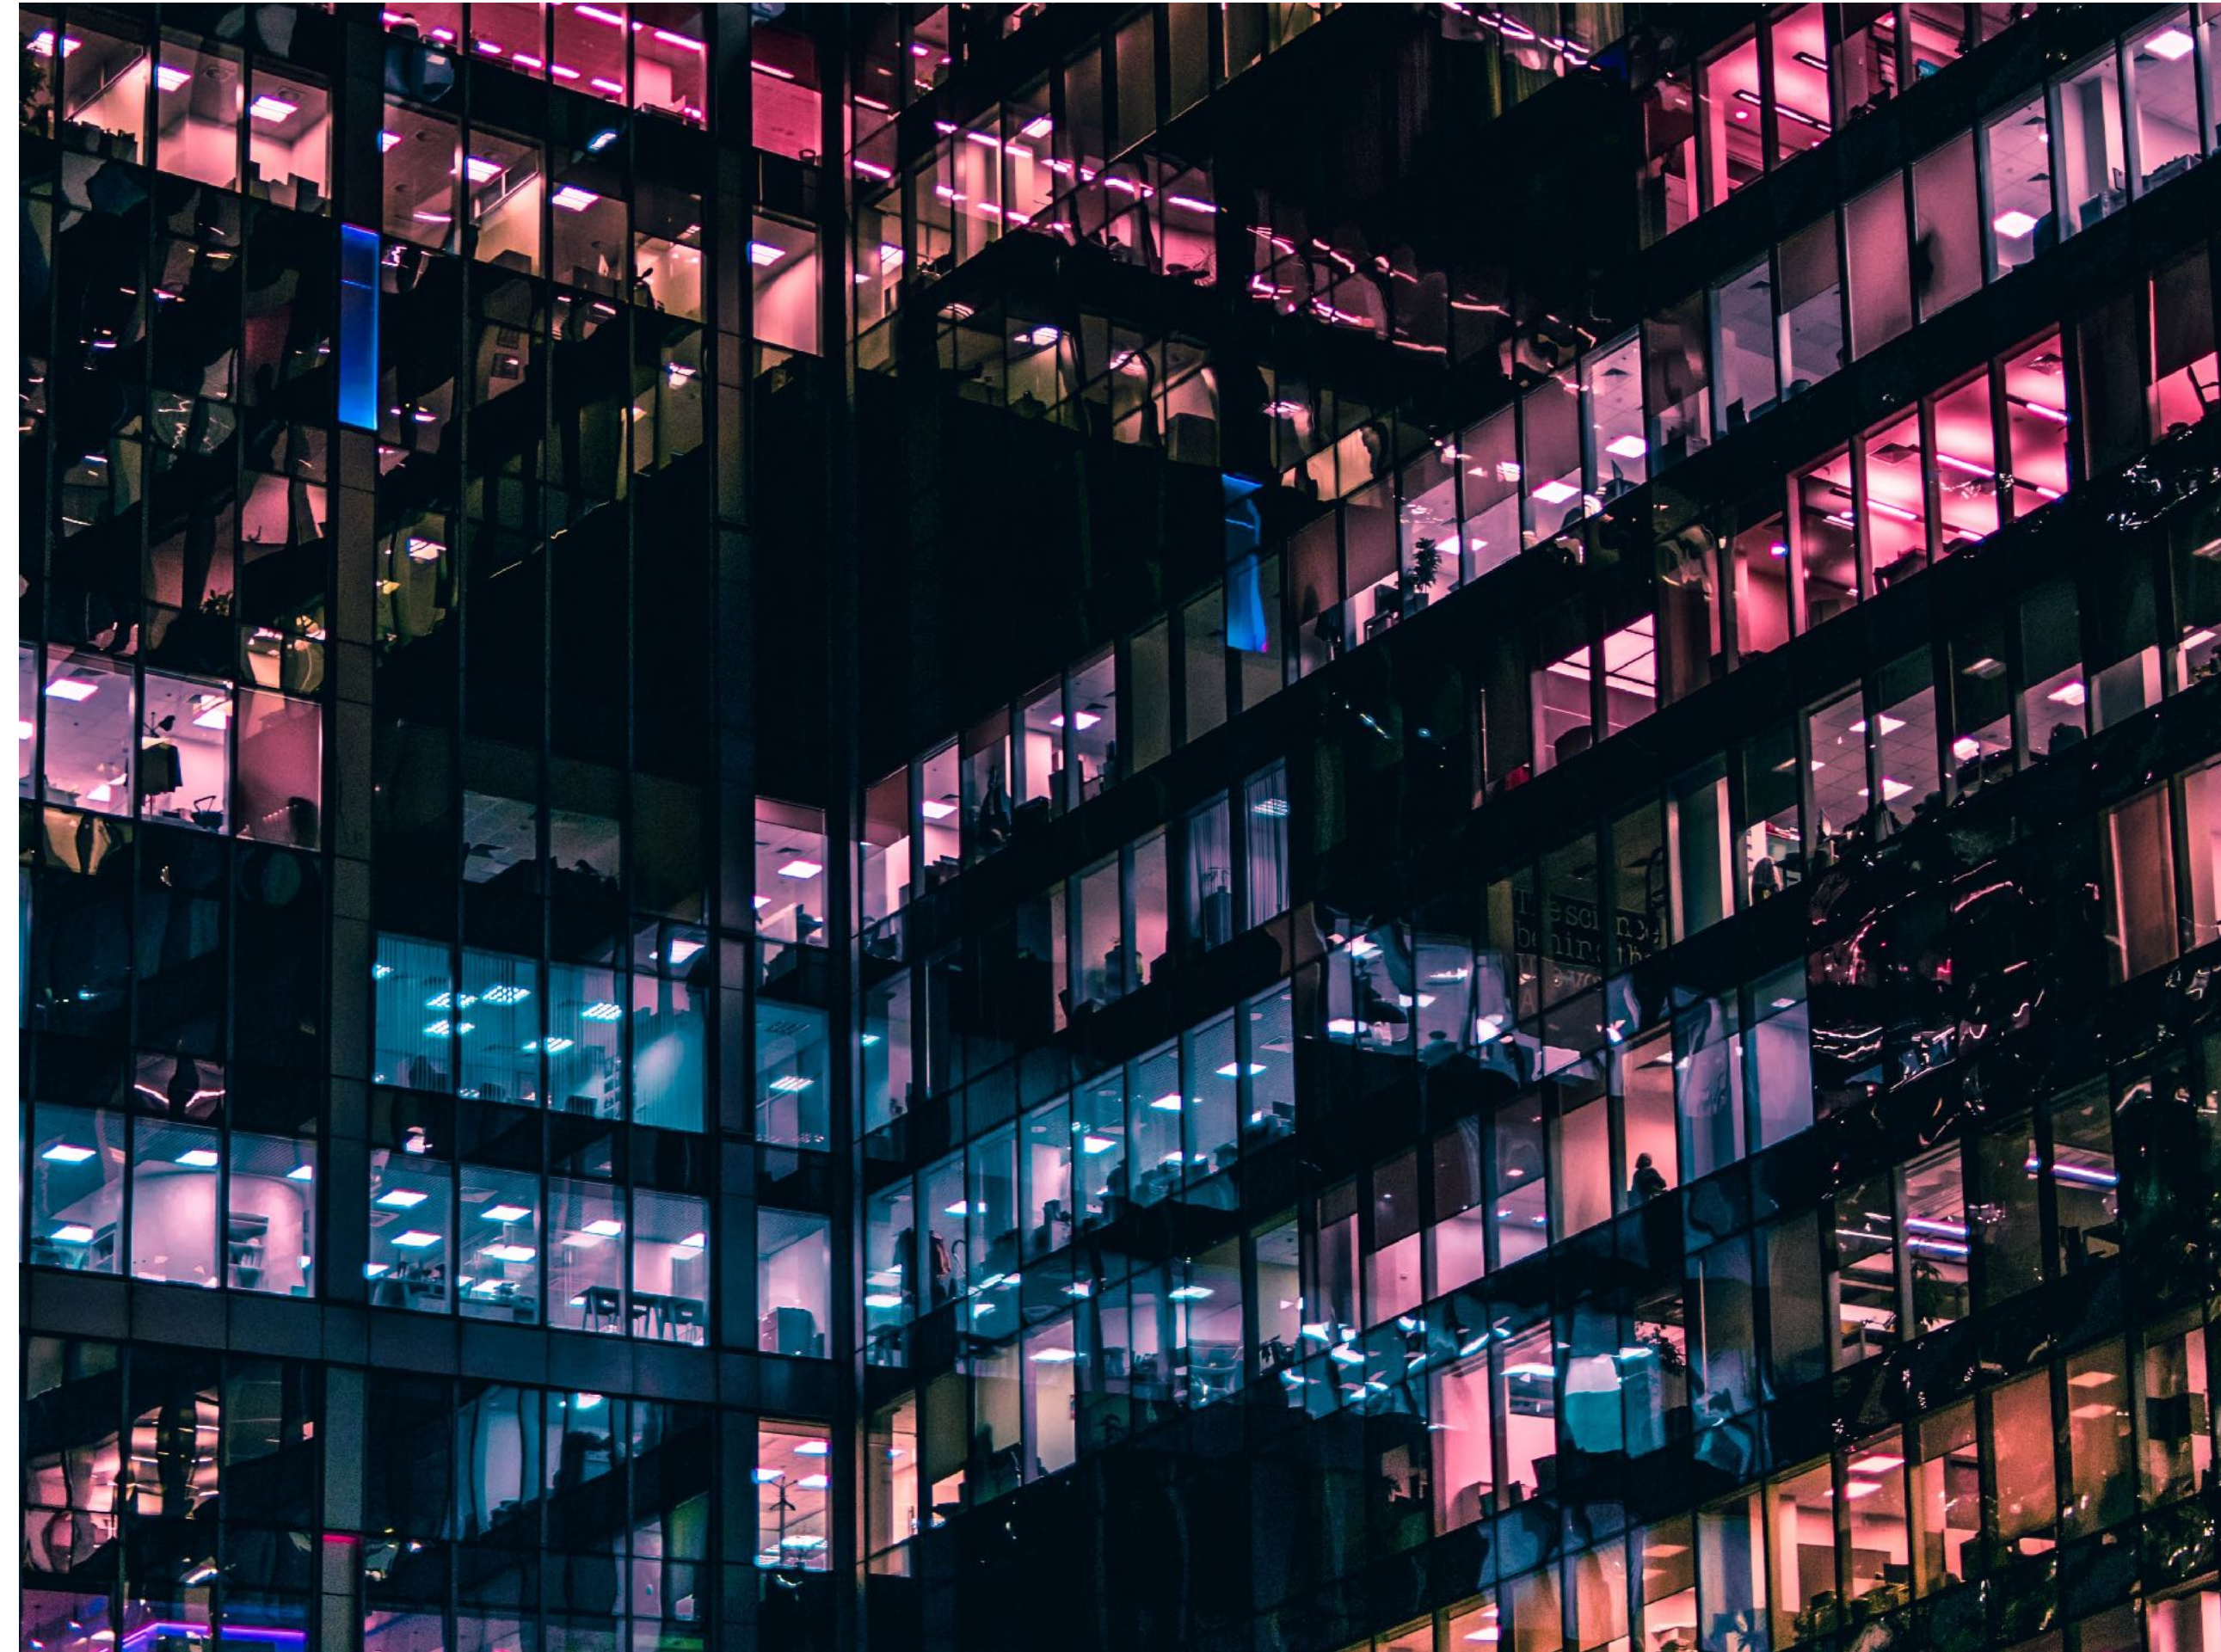

Using an overhead or on stand camera, TOM monitors, collects and analyses raw data - giving you up-to-date information that you can always rely on.

TOM is Fully Optimized for all Devices.

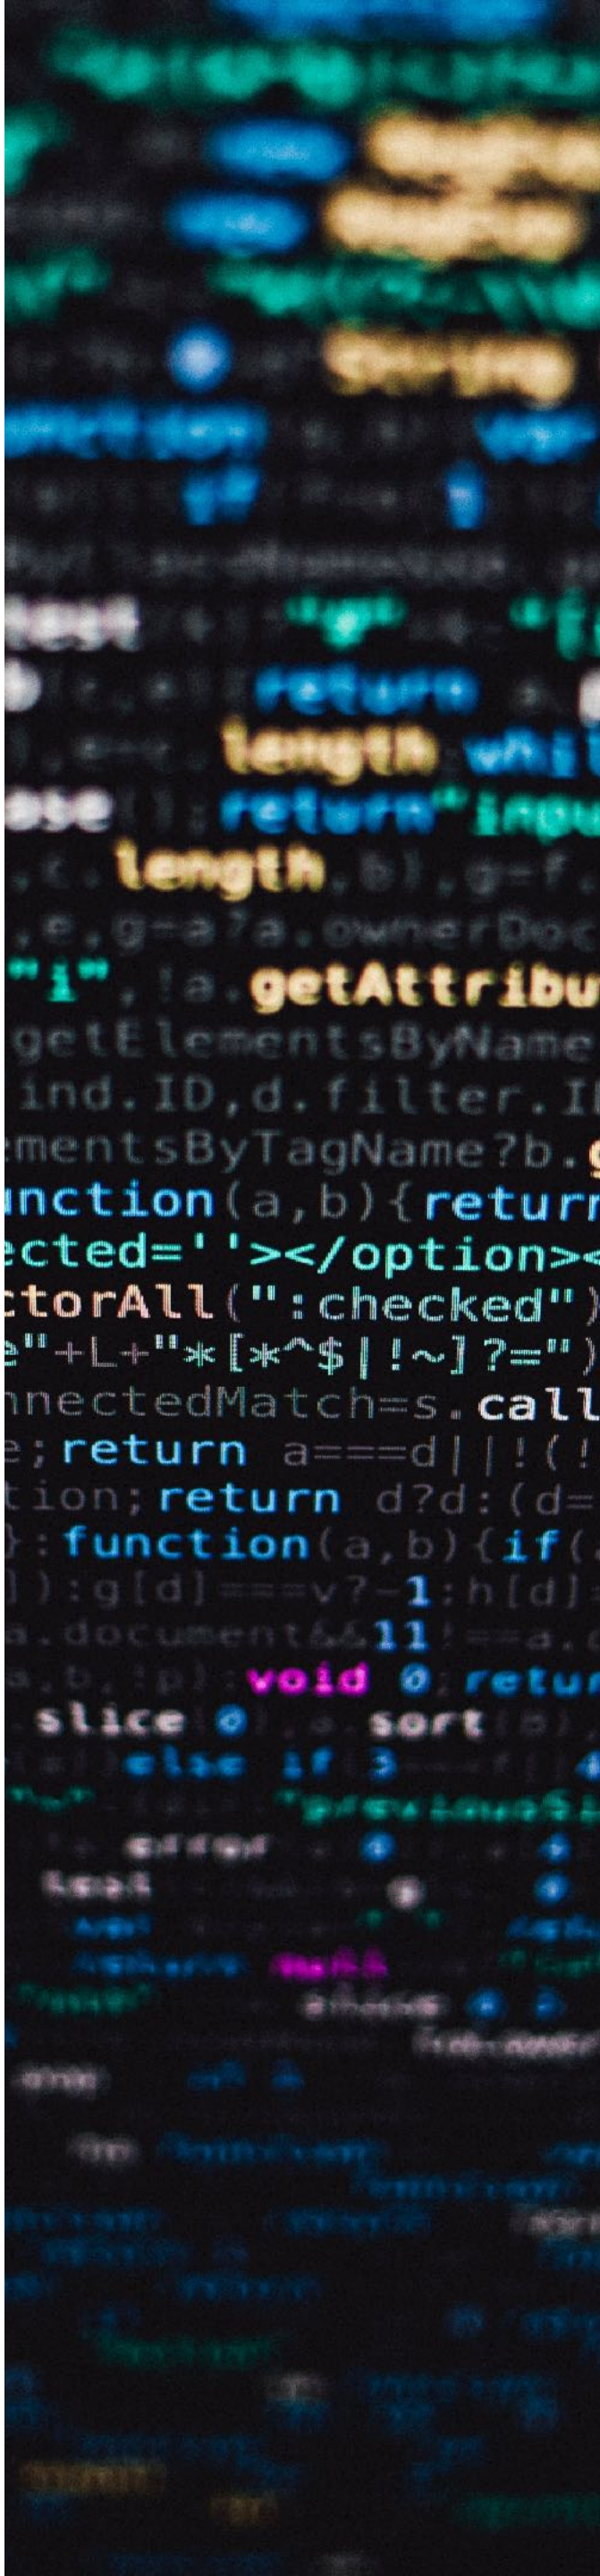

The reports generated can be viewed on a secure smart mobile device through a central server browsing system.

Data gathered includes:

- Live Table Action.
- Win/Loss Updates.
- Player Position Participation.
- Betting Activities.
- Dealer Performance.
- Side bet performance
- Real time alerts

Data is the Fuel that Drives
the Engine of Profit
Forward.
